Privacy Policy - Owy

Item titles
Owy stores the item titles users choose, to send a reminder after 1 week. The item title isn’t linked to the name or device of the user. We will generate a notification ID, which is used to send a notification to the user.

Contacts
We are using the permission to open up ‘Contacts’ to let you select a contact you owe an item from. The first name of the contact you select, will be stored to use in these notifications. We’re only using the first name to use in the reminder after 1 week and we will never sell this information to third parties.

Images and camera
The user can use our ‘Image’ field, but it isn’t required. We use the ‘Gallery’ to let the user select an already taken image and we use the ‘Camera’ to let the user take a picture right from our app. The images you select, are only stored on your device and not on the cloud/our servers.
